Aleksander Figiel
Fullstack Software Engineer
JavaScript, Java EE

I'm former architect and lead developer of traffic.naviexpert.pl.
For 9 years I coded full-stack 30 projects, from startups to big Java EE portals.
Now I'm focused on modern JavaScript, Single Page Applications and my projects.

birthday	21.04.1987, Poland

Aleksander Figiel
Fullstack Software Engineer
JavaScript, Java EE

Experience

2019 - current   Senior Software Engineer McKinsey & Company, Warsaw

Full-stack developer (React, Node.js) of in-house analytical software.
Involved in DevOps responsibilities (Bash, CircleCI, AWS)

2016 - 2018   Team Lead Developer   frosmo.com, Helsinki

Team Lead Developer in 5 developer group, co-operating with Project Managers to deliver new features for big e-commerce companies operating on legacy systems (Decathlon, MediaMarkt).
Responsible for inventing & developing company software platform extensions allowing to use modern JavaScript stack (ES2015+, Node.js)

2015 - 2016   Software Architect   startup co-founder, Wrocław

Architect of stock market predicting software (JavaEE, Angular) in 5 people team. Responsible for building secure Linux server from scratch which ran instances of proprietary prediction algorithm written in Fortran.

2011 - 2015   Software Engineer   fream.pl, Wrocław

Co-architected and developed traffic.naviexpert.pl as Single Page Application using Leaflet.js
Involved in bootstraping and developing full-stack various Java EE systems for startups and established companies.

2010 - 2011   Java EE Developer   xantus.pl, Wrocław

Developing full-stack Java EE systems (EJB, PostgreSQL) with jQuery frontend for various clients.
